4567.24		24		4 pcs

More buffet platters made of laminated plastic can be found in the main catalogue on pages 48 and 49.

Anti-slip sleeves provide a safe positioning of the platters.

"Falcon" - really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet. A single one can bear up to three plates on its wings or, when used as a duo, fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries plain white coup plates or matt-black plates with a slate-like structure. Those plates fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylized branch, which also provides a firm stand.

item	height in cm	number of levels
2208.13PB	51.5	13

"Flower-Tree" - a tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies. Also a selection of jam in handy jars can be presented in an appealing way as well as fresh apples which, placed on the leaves, invite to take one. These masterpieces of craftsmanship also accentuate the beauty of each lobby by its decorative character.

The shape of the leaves is based on the already existing plateau plates and "Flower-Tower" etageres (main catalogue page 89 and 93). Especially on the buffet this opens up the option to arrange the buffet installations diversified but nevertheless harmoniously and variable.

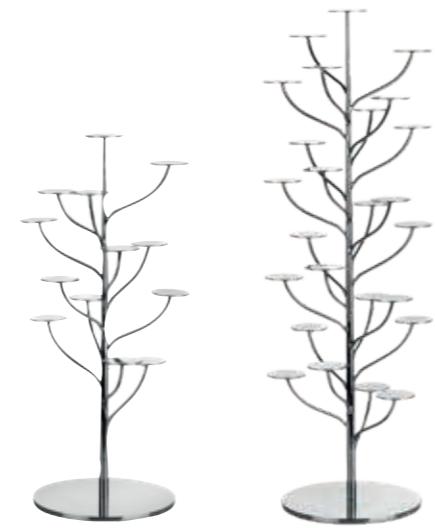

The plateau plates are available on page 93 of the main catalogue.

The "Flex-Tree" enthuses by its versatility! On these trees, plain discs replace the fixed leaves. With a diameter of 5.5 cm, they offer sufficient space to equip the tree either with glass, porcelain or stainless steel miniatures. To be on the safe side, they can be placed on black or white anti-slip silicone pads. This reduces the sound emission and at the same time increases the stability of the used miniatures.

All trees are made of massive stainless steel and are accurately high gloss polished. The 8 mm thick foot is the perfect base and guarantees a safe stand.

Anti-slip pads made of Silicone can be found on page 209 of the main catalogue.

"Flex-Tree"

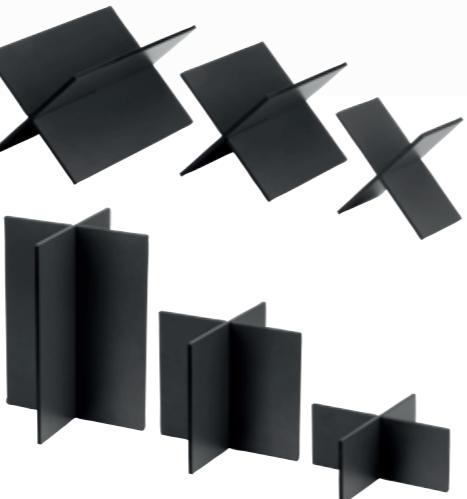

Buffet platters made of laminated plastic
are available on page 48/49 of the main catalogue.

The indestructibility of laminated platters meets the advantages of plug-in systems. The plain displays are loosely stuck together, which ensures a quick and uncomplicated set-up as well as a space-saving storage of the single components. Thereby "StiXXX" meets in particular the hard requirements of daily use in the catering business.

The heights of the puristic displays match perfectly with other series of the Zieher-System, by what creates numerous possible combinations. Positioned as an "X" results in further presentation possibilities with a particularly slight and filigree alignment.

The Zieher buffet platters and displays made of laminate are usable on both sides by the double-sided decoration. This exceedingly robust raw material is break- and scratch-proofed, antistatic and dishwasher safe and thus offers numerous advantages compared to other raw materials.

buffet display "StiXXX"

laminated plastic, 8 mm thick, dark grey, black intermediate ply, break-proof, scratch-proof, dishwasher-safe, antistatic, deburred edges, rounded corners, pluggable - 1 set (2 parts)

buffet bowl

glass, 8 mm thick, dark grey, round, structured, delivery in strong wooden box

item	Ø in cm	height in cm
5704	82	15

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (Art. 8213). But also right at the buffet table or arranged together with the stands of the "Crossline" series in different heights, these designer pieces know how to impress.

More variations of the buffet stands "Crossline" are available on page 14 of the main catalogue.

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they also create visually interesting colour reflections and almost graphic effects.

4884.PB

Design: Silvio Nitzsche

NEW "Eddy" - mini

The small "Eddy"- mini is perfectly suitable for the decanting of wines by the glass or little bottles. Thereby the ideal charge to maximise the content of oxygen is 0,375 ltr. The compact design is perfectly suited to decant white wines first and then to temper in a wine cooler. By the extravagant character of these design elements, even high end cocktails and other exotic creations can be staged appropriately.

Please note:
The ideal charge to provide a maximum of oxidation is 0,375 ltr.

item	Ø top/bottom in cm	height in cm	PU
8014.20PB	23	20	1 pc

"The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousand-fold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

Silvio Nitzsche - WEIN | KULTUR | BAR - Dresden

The volume of the big "Eddy" has been dimensioned in a way that, with a filling of up to 1,5 litres, the extension of the wine's surface becomes as large as possible. Due to the flattened bottom, this respirator stands safely and straight, the in the gift box enclosed collar made of matt black silicone also allows an inclined positioning.

Spot on! – basic ring with LED-light

NEW

Care instructions decanter: Looking at "Star" and "Eddy", almost everybody, who already gained experience with decanters, will intuitively ask how to clean it. Many decanters have the nature, in particular when used for red wines, to absorb the colour pigments and to show light grey or brown surface layers after a certain usage. Most of these carafes have microscopically seen a rough surface, which leftovers of the wine might adhere to and cause an unattractive appearance of the decanters. With our decanters made of borosilicate glass, this effect might appear after a much longer period due to the extremely smooth and repellent surface of this high-quality laboratory glass. In case it actually happens, these traces can easily be removed by using a mixture of citric acid and water. After a 2 hours' residence time, the problem should be solved. The optionally available drying rack (suitable for the decanters "Pebble", "Eddy" and „Star") made of highly polished stainless steel facilitates the drying of the decanters after rinsing (page 9).

Non-skid caps, made of matt black silicone, ensure a safe stand and keep the decanter in the desired position.

in black gift box

item	Ø in cm	length in cm	PU	Gift Box
2317GPB	5.5x3.5	7.5	2 pcs	Gift Box

This new version of the basic ring for the "Eddy" (item 4883) and "Star" (item 4947) decanters offers the chance to put served wine into the spotlight.

The rechargeable Zieher LED-light (item 8150) fits exactly into the cavity at the bottom part of the ring and thus can put the served wine inside the decanter into the limelight. In the beginning the illumination effect in the filled decanter can be very unobtrusive when serving strongly pigmented red wine. But at a decreasing level the play of light and colours becomes more and more intense in an exciting way. These accessories are also suitable to illuminate glass bowls and – platters. In combination with the ring, the LED-light and remote control still maintain their known options, such as adjustable brightness, 7 different colours and various colour changing functions. Detailed information about the Zieher rechargeable LED-light can be found on page 45 of the main catalogue. All components (ring, light, remote control and charger) are available either as single parts or as a set in a gift box.

Attention please! The chargers in the gift box are equipped with a EU plug, chargers with US resp. UK plugs are available upon request.

The Zieher Food - VISION

The VISION series is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eye-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouche or decorative highlights.

Get to know VISION! The glasses FRESH, STRAIGHT, INTENSE and BALANCED are also available in a single package.

FRESH

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.01	8/24	approx. 340	2 pcs
5480.01-1	8/24	approx. 340	1 pc

For extremely fresh white wines, Prosecco or any variety of sparkling wine, light rosé wines

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, freshly acidic structures is encouraged, and individual features of the bouquet are brought into focus.

STRAIGHT

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.02	9/27	approx. 540	2 pcs
5480.02-1	9/27	approx. 540	1 pc

For pure grape varieties and fruity / aromatic red and white wines

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aroma culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

INTENSE

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.03	10.5/28	approx. 640	2 pcs
5480.03-1	10.5/28	approx. 640	1 pc

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wines

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

BALANCED

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.04	12/25	approx. 850	2 pcs
5480.04-1	12/25	approx. 850	1 pc

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagnes

A perfect glass for wine that is not for decanting because of its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

SIDE

crystalline glass, transparent, handblown

item	height in cm	content in ml	PU
5480.07	9/10.5	approx. 480	2 pcs
5480.07-6	9/10.5	approx. 480	6 pcs

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

NOSTALGIC

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.06	10.5/16.5	approx. 250	2 pcs

For cocktails or as a food glass

The wide chalice is perfect for elegant presentations of creative cocktails, spectacular hors d'oeuvres or sophisticated sweets. Ideal in combination with SIDE for plain water, for easy service distinguishing both types of water.

Please note:
The Zieher cutting boards are oiled. The use naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

Further sizes and variations of the cloches are available in our main catalogue on pages 118/119 and 172 to 179.

item	colour
1668.20	black
1670.20	white

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls. All parts have a groove at the top, which allows quick and easy stacking of the various items, even in mixed arrangement.

The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant organically shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased so as to present, for example, long baguettes.

Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called "sharing plates" - can be staged appealingly.

For bigger buffet set-ups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements - as a result, beautiful presentation areas for regional delicacies, desserts, antipasti and much more can be created.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.
